* Subject to details and restrictions printed below. ** Furnished with one (1) set screw each hub only (no keyway)

14 Sizes For SAME DAY SHIPPING

Did you know that we guarantee fast shipping? Curtis carries in stock at all times 14 sizes of single and double joints with solid and bored hubs, as well as "turn-key" joints in both alloy steel and stainless steel in outside diameters of 3/8" to 4". Order any of the stock items listed in the chart above by 3:30 E.T. Monday through Friday, and we'll ship your order same day. If we ship late, we'll pay you a \$50 credit!* The only exceptions: large quantities of 2 1/2", 3" and 4" O.D.'s and stainless steel double joints. **For guaranteed turnaround, call 888-885-6468.**

'Turn-Key' Joints in Stock

Ready-to-use joints with standard bores and keyways with set screws installed are available for immediate delivery. Contact your Curtis distributor or call Curtis for current availability.

Special Materials Available

Curtis also offers joints in most stainless steel grades and many other non-corrosive and special-application materials. Certified material

options include Alloy Steel, Stainless Steel, Bronze, Naval Brass, Aluminum-Bronze, Nickel-Aluminum-Bronze and Monel, all to ASTM, U.S. Government military or federal specifications, as required.

Curtis Will Custom Design

Curtis' experienced power transmission specialists will design and manufacture to meet your performance objectives and individual requirements. We can manufacture special lengths longer or shorter than standard units and also provide: keyways • set screw holes • broaching • turned O.D.'s • flanges • threading • milled slots • splines • slip shafts • EDM machining • welding • special bores • hexes, and other special machining. For special applications, we suggest you call us at 800-466-2144.
