

## Managed Ethernet Switch ES-0800-M

### 1. KEY FEATURES

- 8 Ethernet ports 10/100 Mbps
- Up-link expansion port
- Store-and-forward technology
- Dynamic memory allocation
- Supports 802.3x full-duplex and back pressure half-duplex flow control
- MAC self- learning
- Very low power consumption
- Led display for link/activity

### 2. TECHNICAL SPECIFICATION

- Standard: 802.3 10B-T, 802.3u 100b-Tx, 802.3x, 802.1.p
- Connectors: 8 x RJ45
- Power Supply: 5VDC – 18VDC
- Power Consumption: MAX 500mA@12V
- Operating temperature: 0 to 60C
- Storage temperature : -20 to 70C

### 3. Web Management Features

- Support QoS
- Support PortBase VLAN
- Broadcast storm Protection
- Embedded HTTP web Management
- Port Status configure
- Port Base VLAN Setting
- Port Base DataRate Setting
- Port Locking
- QoS Setting
- Password security
- TFTP firmware upgradable
- Auto MDI/MDIX option
- Filter/Forward special DA option
- Support Packet length 1552/1536
