

Technical Specification Sheet

GGR Pipe Transporter [AGT77]

Originally modified to create bespoke transport solution for a pipework installation project, this motorized trolley is ideal for securely moving heavy pipes and tubes around congested sites.

Originally modified to create bespoke transport solution for a pipework installation project, this motorized trolley is ideal for securely moving heavy pipes and tubes around congested sites.

Like the Glass Tow, the GGR Pipe Transporter can effortlessly carry loads up to 400kg over rough uneven ground and across gradients of 30° thanks to its large pneumatic tyres. This tow truck can travel up to 12 miles on one battery charge with pipework held in place by V-shaped supports on the trolley bed.

Features

- 400kg load
- 240V battery charger included
- 'Body bump' safety feature
- Dimensions: 600mm (h) x 750mm(w) x 1800mm (l)
- Weight: 150kg
