

Tri axle low loaders

**JPM**  
**TRAILERS**

## **BUILT STRONGER TO LAST LONGER**

JPM's Tri axle range of low loaders come in both 27t gross and 33t gross capacities.

All tri axle low loaders have a very shallow angled beaver tail. Combined with one of the lowest bed heights in its class, this leaves the JPM tri axle low loader very easy and safe to load.

### ***All 27t trailers come as standard with:***

- > Sprung drawbar
- > Multi leaf suspension
- > 8 stud axles (300 x 90 brakes)
- > Heavy duty 10" chassis
- > 215/75 R17.5J rated low profile twin wheels
- > Timber floor
- > Full road lights
- > Spring assisted loading ramps
- > Hydraulic brakes (two brake rams per wheel)

### ***Options:***

- > Commercial axles
- > Air brakes
- > Hydraulic ramps
- > LED lights
- > Beacons
- > EBS brakes

BUILT STRONGER TO LAST LONGER

*All 33t trailers come as standard with:*

- > Sprung drawbar
- > 8 leaf suspension
- > Commercial axles ( 310 x 190 brakes)
- > Heavy duty 10" chassis
- > Heavy duty 10" side chimes
- > 235/75R 17.5J rated low profile twin wheels
- > Timber floor
- > Full LED road lights
- > Heavy duty hydraulic ramps
- > Air / hydraulic brakes with load sensing on the air circuit
- > Outriggers
- > Strap box
