

Dump Trailers

JPM
TRAILERS

BUILT STRONGER TO LAST LONGER

JPM manufacture a range of dump trailers from 14t capacity to 25t capacity.

14t models come on JPMs tried and tested rocker axle system. All models from the 16t onwards are supplied as standard on multi leaf suspension.

All trailers come as standard with a sprung drawbar, hydraulic rear door, hydraulic brakes and LED lights.

Additionally, the full range of trailers can be specified with the following options:

- > *Hydraulic fold away rear door*
- > *Commercial axles*
- > *Air brakes*
- > *EBS brakes*
- > *Hardox body*
- > *Various wheel sizes*

For further information or to discuss your requirements please contact JPM.
