

Livestock Trailer Range

JPM TRAILERS

BUILT STRONGER TO LAST LONGER

JPM's Livestock Trailer range is available in tandem and tri axle versions.

Tandem axle trailers are available in lengths from 20ft up to 30ft (regulations permitting). The tri axle version begins at 26ft and goes up to 32ft long (regulations permitting). All trailers come as standard with slam shut dividing gates, LED lights, slurry tank, heavy duty multi leaf suspension and 8 stud axles.

The trailers are manufactured with a box section frame which is then cladded in 4mm aluminium. This ensures that the body is extremely strong and light.

BUILT STRONGER TO LAST LONGER

All trailers can be modified to suit individual customer's requirements.

Options include:

- > Commercial axles
- > Wheel sizes
- > Sheep decks
- > Heavy duty loading gates
- > Air brakes
- > ABS brakes

For further information on the various specifications please contact us.
