

Basket Strainers

The Designers Series

For the past four decades, Jomar has been providing high quality and unique sink strainer designs to the plumbing industry. **The Designer Series** was inspired and driven by the passion of our founder, Joseph Martin. **The Designer Series** goes beyond your average basket strainer by using a higher standard of embedded quality and providing different trim levels and finishes to meet your every need.

SS-306 Snap-N-Loc®

As one of Jomar's more popular basket strainers, the Snap-N-Loc® is known for its original spring-loaded ball bearing post design that snaps perfectly into place, creating a positive leak-proof seal every time. This popular strainer is constructed with a high quality stainless steel deep-cup body, ball bearing, and basket and comes standard with a brass tail nut. With a sleek design and proven track record, it has become such a favorite among installers that it is offered in brushed or polished stainless steel finish.

See page 7 for details.

SS-304 Twist-n-Loc®

Manufactured with the highest quality materials, the Twist-N-Loc® creates a positive metal-to-metal leak-proof seal with a simple twist. The Twist-N-Loc® features a high quality brass body, hand knob, and post. Every Twist-N-Loc® comes standard with a stainless steel basket and a brass tail nut. To satisfy every application need, this contractor favorite is offered in chrome plated brass or brushed stainless steel finishes.

See page 7 for details.

SS-440 Snap-Tite™

The Snap-Tite™ basket strainer utilizes a stem clip that can switch from straining to a positive leak-proof rubber seal with a simple push or pull motion. The Snap-Tite™ body and basket are high quality stainless steel and comes standard with a zinc or brass lock-nut and tail nut. This strainer has the quality that The Designer Series is known for.

See page 7 for details.

SS-305 Easy Loc®

If you prefer all that the Twist-N-Loc® has to offer, then the Easy Loc® may also be a great fit for you. This strainer affords you all the benefits of the Twist-N-Loc® but also incorporates a labor-saving easy mounting device. You simply use a screw driver to tighten three securing bolts for an easy installation.

See page 8 for details.

SS-420 Mag-na-Loc™

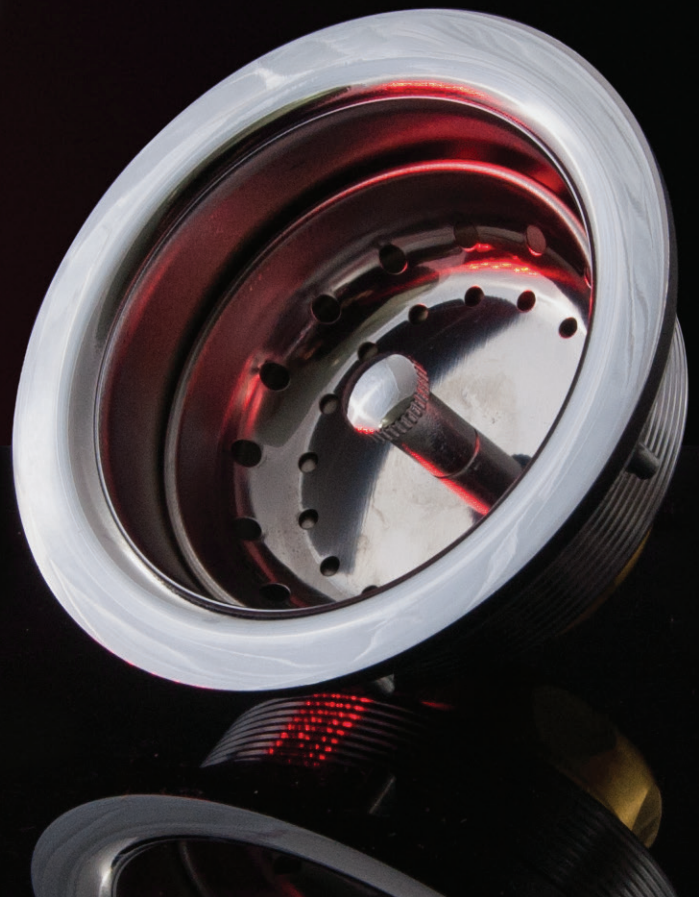

The Mag-Na-Loc™ provides an innovative and user-friendly design with a magnet inside of the rubber stopper. This original design sets this strainer apart from all others, while providing a leak-proof seal every time. Each strainer includes a high quality stainless steel body, stainless steel basket, brass tail nut, and a chrome plated hand knob and post.

See page 8 for details.

SS-410 Smart Move™

With a unique post design, the Smart Move™ can easily switch from straining to a positive leak-proof seal with just a quarter-turn. Quality begins with a chrome plated brass body, hand knob, and post. In addition, it features a brass tail nut, an extra-large locknut and a stainless steel basket. This versatile strainer is definitely a smart move.

See page 8 for details.

SS-430 Snap 'N Seal®

The Snap 'N Seal® is an economic designer series choice that seals with a simple rubber stopper. Both the body and basket are constructed of stainless steel, while the hand knob is chrome plated ABS plastic. It comes standard with a brass tail nut and a large zinc lock-nut.

See page 9 for details.

SS-308 Small Wonder™

With a unique deep cup basket that is removable for easy cleaning, Small Wonder™ models come in either a chrome plated brass or brushed stainless steel finish with a standard brass tail nut. This strainer fits most standard bar sink openings.

See page 9 for details.

SS-310 Bar-ette™

To prevent unwanted clogs and blockages, the Bar-ette™ strainer features a stainless steel grill. Models come in either a chrome plated brass or brushed stainless steel finish with a standard brass tail nut. This strainer fits most standard bar sink openings.

See page 9 for details.

BS-323-DBS Push-N-Seal II™

The Push-N-Seal II™ has similar dimensions and specifications to InSinkErator® and many other brand name disposers. This garbage disposer cover is easy to use and reliable with a thick BUNA rubber seal and an appealing brushed stainless finish.

See page 9 for details.

SS406 Snap Loc

The SS406 is a rugged yet affordable version of a popular designer series strainer. Constructed with a 400 grade stainless steel deep cup body, this strainer provides the popular 'snap loc' seal. It also includes a stainless steel basket, ball-bearing post and a brass tail nut.

See page 13 for details.

SS401 Economy Strainer

With quality at an affordable price, the SS401 meets your day to day strainer needs. Utilizing a 90 degree turn, the post can conveniently open or close the basket to slow the drain of water. Easy to install, this 400 grade stainless steel strainer body and basket includes a chrome plated ABS handle, zinc lock-nut and tail nut.

See page 13 for details.

SS405 Easy Loc

Highly durable and easy to install, this strainer has a similar design of our Twist Loc™ but with a labor-saving mounting device. To mount, simply tighten three bolts. The SS405 Easy Loc provides durability and value with 400 grade stainless steel construction.

See page 13 for details.

SS400 Disposer with Stopper

Jomar's disposer with stopper fits all models of InSinkErator® and is compatible with disposers that have similar dimensions and specifications. The SS400 utilizes a 400 grade stainless steel construction and provides a positive leak-proof rubber seal every time.

See page 14 for details.

SS409 Basic Deep Cup Sink Strainer

High quality and low cost makes this deep cup strainer a perfect choice. Made of 400 grade stainless steel, it features a unique post that can switch from straining to a positive leak-proof rubber seal with just a quarter turn motion. With a large zinc lock-nut and tail nut it is also easy to install.

See page 14 for details.

SS404 Twist Loc

Featuring a twistable post design to create a positive metal-to-metal leak-proof seal, this strainer is manufactured with 400 grade stainless steel. Adding extra quality with a dense BUNA washer and brass tail nut, it is an affordable option that performs to meet your everyday needs.

See page 14 for details.

SS410 Bar Sink Strainer

The SS410 strainer is constructed of 400 grade stainless steel with a zinc tail nut. To prevent unwanted clogs and blockages, this strainer is an affordable and practical choice. Fits most standard bar sink openings.

See page 14 for details.
