Balancing synchronous lifting systems

RK SyncFlex

RK SyncFlex – adjuster plates for lifting columns

Highlights / features:

- Alignment of the lifting columns via easily accessible setting screws
- Screws for connection to the lifting column are included in the set
- Height compensation for lifting columns
- Catch mechanism to prevent the device being broken off when mounted overhead
- Height compensation ± 1mm
- Vertical compensation ± 1° (compensates for unevenness of up to 10 mm)

RK SyncFlex H

Horizontal alignment

To prevent locked-up stress in mechanically overdefined bearing systems (more than one fixed bearing) around the horizontal axis. With RK SyncFlex H defined loose bearings supplement the application.

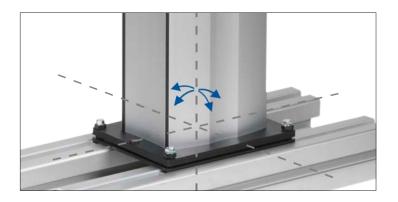

RK SyncFlex H					
1000N, 1500N, 3000N					
± 1mm					
36mm					

RK SyncFlex V

Vertical alignment

If the lifting columns are not parallel, the distance between the two upper fixing points will change during the movement. However, a rigid connection keeps this distance constant, and this means that the lifting columns are subject to very strong forces. RK SyncFlex V enables the compensation of unevenness in the mounting environment.

	RK SyncFlex V				
Height compensation	± 1°				
Installation height without pressure plate	10-15 mm				
Installation height with pressure plate	15-20 mm				

RK SyncFlex – dimensions / order data

RK SyncFlex H

The horizontal compensation in the Z-axis enables the freedom of movement required when moving the lifting columns. **Scope of delivery:** Adjuster plate, incl. fixing material

RK Rose+Krieger's range of services

The RK product range

LINEAR TECHNOLOGY

- Manual adjustment units
- Electric cylinders
- 🗸 Lift columns
- 🗸 Linear axes
- We can move loads for you of up to 3 t up to 12 m dynamically, reliably and with great precision

PROFILE TECHNOLOGY

- The tried and tested BLOCAN[®] aluminium assembly system
- Sections from 20 mm to 320 mm for all applications
- Joining technology with an unsurpassed combination of flexibility and reliability

JOINING TECHNOLOGY

- Fittings for the secure combining of round and square tubes
- Aluminium, steel, stainless steel and plastic elements
- ✓ Sizes from 8 mm to 80 mm

MODULE TECHNOLOGY

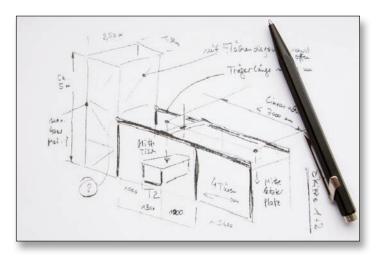

- ✓ Machine frames
- ✓ Workstations
- Protective clothing
- Multidimensional linear axis modules
- ✓ Complete drive solutions

What we can do for you

Do you need to focus your resources on other tasks and are you looking for a competent partner you can rely on? Working in close collaboration with you, our specialists will develop solutions tailor-made to meet your needs. If you wish, we can also assemble and commission the units on site.

Just make a sketch of your requirements

We can deliver your turnkey solution or assemble and commission it for you on site

FAX reply form

Yes, I would like to know more about RK linear technology, please:

- send me the linear technology lifting columns and electric cylinders catalogue
- send me details of your product range in PDF format on a CD-ROMContact me
