

Innovative. Time-Saving. Economical.

ERICO Unveils Exciting, New CADDY® Products

CADDY® ROD LOCK provides a quick and economical solution for installing electrical and mechanical systems supported by threaded rod. The system includes the CADDY ROD LOCK beam clamp, channel nut and an anchor screw. The SN Series Nut can also be used as an accessory to the system.

With its breakthrough “push-install” design, CADDY ROD LOCK simplifies the installation of threaded rod. Simply push the threaded rod through the mounting hole and it instantly locks into position. The unique features of the system help to reduce the installation time of threaded rod by up to 52% compared to conventional fasteners.

For more information, visit www.erico.com/caddyrodlock

The CADDY® PYRAMID RPS H-Frame Series Support System is designed to provide superior support for pipe, conduit, ductwork, cable tray or any combination of these without causing damage to the rooftop membrane. The base is made from recycled, UV-stabilized engineered thermoplastic and features a highly engineered design to help uniformly distribute the load.

You provide your own channel, which keeps the installation cost low and allows flexibility in fabricating the H-frame on-site. The CADDY PYRAMID RPS H-Frame Series accepts standard strut channels.

The KBT Wire Basket Tray Clip is an easy-to-install, time-saving solution for securely attaching wire basket tray to strut. Simply place the basket tray on top of the strut, position the KBT clip over the tray at the desired position, squeeze and slide it in place to finish the connection – it’s that simple!

The installation is completed without the need for tools or additional hardware. The clip fits tray wires from 4 mm to 8 mm (3/16” to 5/16”).

These time-saving solutions are designed to help you complete projects faster, easier and more efficiently. For more information, visit www.erico.com or contact your local ERICO representative.

WARNING
ERICO products shall be installed and used only as indicated in ERICO's product instruction sheets and training materials. Instruction sheets are available at www.erico.com and from your ERICO customer service representative. Improper installation, misuse, misapplication or other failure to completely follow ERICO's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death.
