# POWER TROWELS

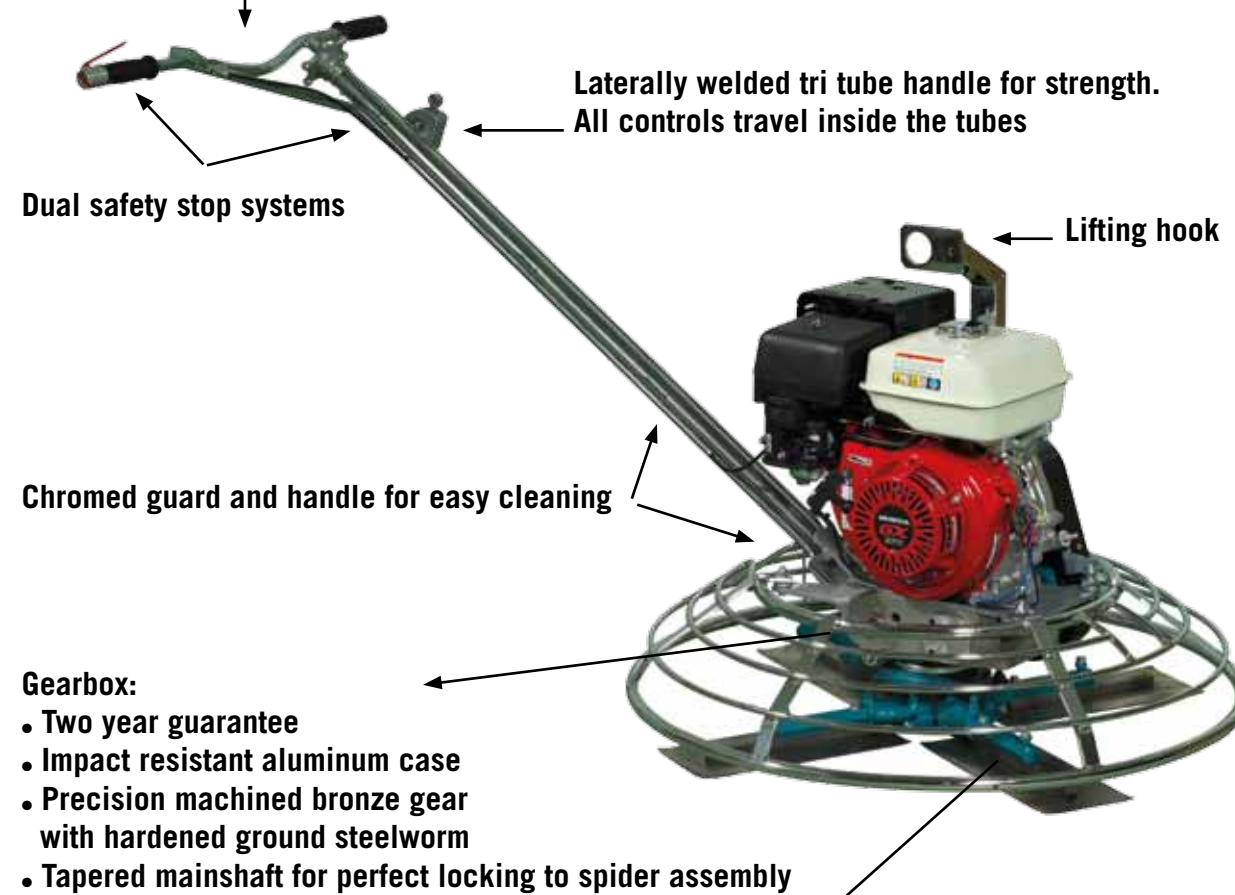

## THE DESIGN AND QUALITY ENGINEERED STRENGTHS OF A BETON TROWEL

### Why re-invent the wheel ?

Our machines are built from the bottom up to the same tried and tested design and quality-parameters that Art Bartell designed and engineered some 45 years ago. The result is a well balanced, reliable, heavy duty workhorse that will give you years of service.

Contoured handle for operator comfort and safe machine control

Laterally welded tri tube handle for strength. All controls travel inside the tubes

Dual safety stop systems

Lifting hook

Chromed guard and handle for easy cleaning

Gearbox:

- Two year guarantee
- Impact resistant aluminum case
- Precision machined bronze gear with hardened ground steelworm
- Tapered mainshaft for perfect locking to spider assembly

Spider assembly:

- Precision machined spider plate and trowel arms to fine tolerances with roller burnish finish ensures long service life
- Arms grease grooved ensuring grease moves along whole surface ensuring continual free movement and minimal wear

## WALKBEHIND TROWELS

### BT60 & BT75E EDGER TROWEL

- Rotating ring allows machine to run along a wall without damage
- Pan and blades directly under ring edge for close to wall finishing
- Petrol and electric engine options

### BT90 & BT75 POWER TROWEL

- Standard 90 cm and 75 cm diameter trowels
- Blades options: finish, combination, wide finish, float shoes, float pans

### BT120 POWER TROWEL

- 120 cm diameter high performance trowel (2 times faster coverage than a 90 cm diameter trowel)
- Machine balance gives easy control
- Variety of power options from 9 to 13 HP

## RIDE ON TROWELS

### BT750-2PFH13 BABY FLOAT PAN MACHINE (2 X 75 CM)

- For tight spaces & upper floors
- Fuel economy with only 13 HP engine
- Weight ideal for early finishing
- Seat adjuster

### BT900-20LH24 OVERLAPPER MACHINE (2 X 90 CM)

- Blades overlap leaving no concrete ridges beneath centre of the machine
- For use with blades and float shoes
- Lights, spray system, seat adjuster & cup holder fitted as standard
- Low centre of gravity makes this a great finisher

### BT900-2PFH24 PAN FLOAT MACHINE (2 X 90 CM)

- Pan float machine - Takes pans and blades
- Lights, spray system, seat adjuster & cup holder fitted as standard
- Low centre of gravity

### BT900-2HPFH24 HIGH RIDER (2 X 90 CM)

- Good all round floating and finishing machine.
- Strong U-joint drive couplings & 3 belt clutch.
- Lights, spray system, seat adjuster, cup holder and toolbox fitted as standard.

### BT120-2/4/PFV35 & BT120-2/5/PFV35

- High powered pan and finishing machine
- Large heavy duty gearboxes with additional oil capacity for cool running
- 35 HP twin cylinder engine
- 4 or 5 bladed spider assy
- Lights, spray system, seat adjuster, toolbox and cup holder fitted as standard
