

POLYTETRAFLUOROETHYLENE (PTFE) COMPRESSION FITTINGS

Body and ferrules made of virgin PTFE. The nut and ferrule-gripper is made of PVDF. Performance at ambient room conditions: 120psig for 1/16" fittings linear decreasing to 80psig for 3/4" fittings, and 60psig for fittings larger than 3/4". Performance at elevated temperatures up to 85°C/185°F: 90psig for 1/16" fittings linear decreasing to 60psig for 3/4" fittings and 40psig for fittings larger than 3/4".

- Wetted surfaces use chemically resistant PTFE.
- Compression style fitting with gripping ring.
- Great with vacuum or pressure.
- Wide variety of sizes (special configurations upon request).
- Also available in bore-through to allow for rigid tubing to pass completely through fitting.

POLYTETRAFLUOROETHYLENE (PTFE)

COMPRESSION FITTINGS & STOPCOCKS

Body and ferrules made of virgin PTFE. The nut and ferrule-gripper is made of PVDF. Performance at ambient room conditions: 120psig for 1/16" fittings linear decreasing to 80psig for 3/4" fittings, and 60psig for fittings larger than 3/4". Performance at elevated temperatures up to 85°C/185°F: 90psig for 1/16" fittings linear decreasing to 60psig for 3/4" fittings and 40psig for fittings larger than 3/4".

Tube Compression Elbow to Male NPT

- Wetted surfaces use chemically resistant PTFE.
- Compression style fitting with gripping ring.
- Great with vacuum or pressure.

2-Way Stopcock

- Wetted surfaces use chemically resistant PTFE.
- Compression style PTFE fitting with PVDF gripping ring or female NPT.
- Great with vacuum or pressure (60psig max).
- 110°C Media Temperature

Female NPT Stopcocks

Tubing O.D.	Order Code

Tube Compression Stopcocks

1/8	5839-62
1/4	5839-66
3/8	5839-70
1/2	5839-74
3/4	5839-78

Also available upon request:

- 3-way and 4-way stopcocks
- Panel mounting
- Metric tube ends
- Male NPT connections
- Sanitary Connections

Tube Compression Elbow Union

- Wetted surfaces use chemically resistant PTFE.
- Compression style fitting with gripping ring.
- Great with vacuum or pressure.
