

INTRODUCES...

Lab Spoons/Scoops/Scrapers

Ace Glass is proud to introduce a new line of lab spoons, scoops, and scrapers. **Spoons** are non-sterile polypropylene, designed for small-size sampling. The long handles allow you to easily reach into bottles, flasks, and beakers. Available in four convenient bowl sizes. **Scoops** have flat bottoms, so you can place them on your lab bench. They are steam autoclaveable, ideal for use as a weighing boat. **Scrapers** are available in different plastic materials, shapes, and sizes for better and safer glass vessel cleaning. Rugged enough to clean out tough residue in glass flasks, yet they will not scratch the glass surface.

New!

13394 Lab Spoons Polypropylene

Designed for small size sampling. Non-sterile, available in four bowl sizes. Long handles easily reach into bottles, flasks, and beakers.

| Volume | Handle Length, mm | Width, mm | Pkg. Qty. | Order Code |
