

## EDGE FINDER

# StudSensor™ EDGE

### Stud Finder with SpotLite® Pointing System and a Revolutionary New Shape

The maker of the original StudSensor™ is now taking stud finding to the next generation. First in a new line of product overhauls, the StudSensor™ EDGE is a complete redesign of Zircon's most popular tool.

Its new patented pinch grip design features a body molded specifically to fit comfortably in the palm of your hand. The end result is a secure hold in either hand at any angle providing a new level of ease, comfort, and utility to the user. The EDGE also features a user-friendly interface and improved SpotLite® Pointing System which shines a bright arrow-shaped beam on the wall to clearly identify the edge of the target.

The bevy of improvements and the revolutionary new design make it our best entry-level stud finder yet.

- Locates the edges of wood or metal studs up to ¾ inch (19 mm) deep
- New "Ready" light indicates when calibration has completed successfully.
- New "Edge" light indicates when the tool is over a stud edge.
- Updated SpotLite® Pointing System shines an arrow-shaped light on the wall to mark the target.
- Should scanning begin over a stud, Zircon's patented "over-the-stud" indicator alerts the user to start the scan in a new location
- New ergonomic design can be comfortably held in either hand at any angle.

### SPECIFICATIONS

<b>Dimensions</b>	5.54 in. H x 2.33 in. W x 1.18 in. D (141 mm x 59 mm x 30 mm)
<b>Weight</b>	3.6 oz. (102 g) without battery
<b>Battery Type</b>	9-V alkaline (not included)
<b>Estimated Battery Life</b>	1 year at 10 minutes per day with alkaline battery
<b>Position Accuracy*</b>	<b>Wood studs:</b> typically within ⅜ in. (3 mm) using the dual scan and mark procedure <b>Metal studs:</b> typically within ½ in. (13 mm) using the dual scan and mark procedure
<b>Depth*</b>	Typically up to ¾ in. (19 mm)
<b>Operating Temperature</b>	20° to 120°F (-7° to 49°C)
<b>Storage Temperature</b>	-20° to 150°F (-29° to 66°C)
<b>Humidity</b>	80% RH (noncondensing)
<b>Water Resistance</b>	Splash and water resistant, not waterproof

\*NOTE: sensing depth and accuracy can vary due to moisture, content of materials, wall texture, paint, etc.
