Alu Container UL 345

APPROPRIATE FOR FOODSTUFFS AND ENDURABLE

Due to special refinement processes they are ideal for storing and transporting foodstuffs and also anything else. Depending on size, they are also suitable for use on conveyor belts or roller conveyors. Large, comfortable handles facilitate their everyday use. The alu containers are available in 6 standard sizes + in custom sizes on request.

This range offers an aluminum container for the food industry for foodstuffs' storage or anything else.

The UL 345 range comprises 6 models with capacities ranging from 21 to 143 liters, dimensions adjusted to Euro pallet standards. If one of these does not fit your requirement, we can make to your size.

Your advantages in detail - technical specification:

- Practical aluminium container. 0.8 mm aluminium sheet material on all sizes, for targeted use in the food industry.
- 6 standard available sizes, dimensions adjusted to Euro pallet standards.
- Due to special refinement processes they are ideal for storing and transporting foodstuffs and also anything else.
- Lightweight, resistant against corrosion, weather conditions and low temperatures.
- Special shape upper rim profile provides extra stability and makes the containers stackable on top of each other.
- Large and comfortable, plastic molded handles.
- All around reinforcement ribs and additional corner ribs.
- Gap-free load-bearing, tox riveted overlap joint of the body sheet.

Strength hidden in details, materialized as a whole - Alu Container UL 345

YOUR ADVANTAGE: LIGHTWEIGHT & CORROSION RESISTANT.

Many offer products. We deliver solutions. Solutions with all details designed for fulfilling.

Nothing less and nothing more, that's the substance of our products.
