BLAGDON PTFE PUMPS

The BLAGDON range of conductive pumps are **ATEX approved** offering a safe solution to fluid transfer. The **solid construction** of the pumps allows for safe operation in explosive and hazardous environments.

The pumps are **intrinsically safe, lube-free as standard** and operate up to 7 bar pressure. The BLAGDON PTFE range have the **ability to run dry** without any safety issues.

The ease of maintenance of these pumps, **reduces down-time** for the End User and having **flanged fluid connectors** also significantly reduces any risk of damage to pipework connections.
