

Feed-through capacitor - 3,63mm dia

32813100D / 102 / 104 / 106 / 108

Press-fit Feed-through capacitor for mounting in a 3,46mm hole.

- Working voltage..... 200Vdc.
 - Test voltage..... 600Vdc 1min.
 - Feed-through current..... max 10A
 - Insulation resistance..... min 10⁴MOhm.
 - IEC category..... 55/125/56
 - Capacitance..... See below
 - Marking..... None
 - Mounting hole..... 3,46mm-+0,01.
 - Recommended outside dia. of mounting tool..... 4,0mm
 - Recommended inside dia. of mounting tool..... 2,5mm
- Proper installation requires firm, steady pressure until flange is fully seated.

Type number	Capacitance and tolerance
32813100D	10pF max
32813102D	100pF -20/+80%
32813104D	150pF -20/+80%
32813106D	470pF -20/+80%
32813108D	680pF -20/+80%
