

## Gigabit Interface Converter (GBIC) 1000 BASE-T, Cisco compatible WS-G5483

- **Description:** The 1000Base-T Gigabit Interface Converter (GBIC) is an ideal solution for current gigabit Ethernet switch with GBIC interfaces to provide 1000Base-T full-duplex interconnection over existing UTP-5 copper infrastructures. Based on the GBIC specification 5.5, 1000BASE-T GBIC provide full compatibility with the existing Ethernet switch system on the market.

The 1000BASE-T Gigabit Interface Converter (GBIC) is an ideal solution for Catalyst 6500, 4000, 3550, 2950, 3500 XL and 2900 XL.

- **Application/Usage:** Data Networking
- **Interfaces/Ports:** 1 x RJ-45 1000Base-T LAN
- **Connectivity Media:** CAT5/CAT5e/CAT6 cable
- **Data Transfer Rate:** 1 Gbps Gigabit Ethernet Full-duplex
- **Data Link Protocol:** Gigabit Ethernet
- **Max Transfer Distance:** up to 100m over CAT5 cable
- **Compliant Standards:** IEEE 802.3
- **Other:** Support auto-negotiation & MDI/MDIX
- **Power Consumption:** 1.50 W
