

# Tandem Axle Low Loader

# JPM TRAILERS

## **BUILT STRONGER TO LAST LONGER**

JPMs range of Tandem axle low loaders have one of the lowest bed heights available. Along with a very shallow angled beaver tail this leaves the JPM tandem axle low loader one of the easiest and safest trailers in its class to load. All trailers come as standard with:

- > Sprung drawbar (19t model)
- > Sprung ramps
- > Multi leaf spring suspension
- > Hydraulic brakes (2 brake rams per axle)
- > Full road lights
- > Timber bed
- > Chequer plate beaver tail with 20mm grip bars
- > 215/75 r17.5J rated tyres (19t model)
- > 400/65 r15.5 tyres (11t midi)

BUILT STRONGER TO LAST LONGER

Cheese wedge ramps

11t midi low loader

**Options include:**

- > Hydraulic ramps
- > Trailer length
- > Commercial axles (310 x 190 brakes)
- > Air / hydraulic brakes
- > Hydraulic load sensing
- > Mini super single wheels, 455/40 r22.5
- > Removable galvanised bale wedge
- > Front bale rack
- > LED lights

There are numerous other options available.  
Please contact your local dealer or  
JPM direct to discuss.
