

Multi Purpose Dump Trailer

JPM TRAILERS

BUILT STRONGER TO LAST LONGER

The multi purpose dump trailer allows one operator to load an excavator and transport it to and from site, therefore doing away with the need for a low loader.

While on site the multi purpose dump trailer can then operate as a conventional dump trailer to transport the excavated material.

**Standard features include:**

- > 14' x 7'10" internal dimensions
- > 455/40 R 22.5 wheels
- > Hydraulic brakes
- > LED lights
- > 6t Aluminium ramps (under body storage)
- > Three stage tipping rams
- > Heavy duty rocker axles
- > Sprung drawbar
- > Hydraulic door

Options include:

- > Wheel size
- > Spring suspension
- > Commercial axles
- > EBS braking
- > Air brakes
- > Hardox body
- > Larger capacity body
- > Drop sides
