

Reverse Sensing System

ACCESSORIES

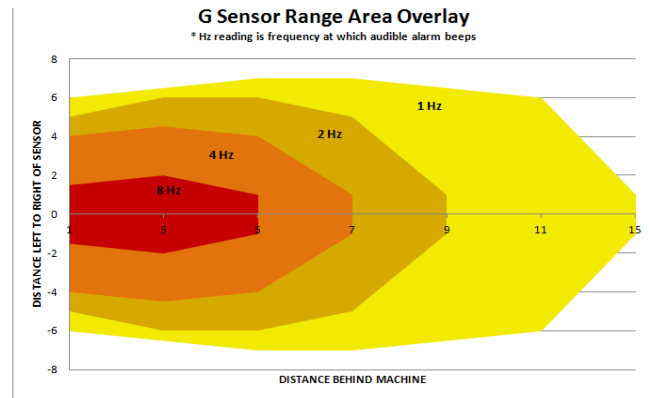

Detect Objects in Your Machine's Path When Traveling in Reverse!

JLG is pleased to announce the availability of the reverse sensing system, designed to detect objects in the path of the machine when traveling in reverse. The reverse sensing system will notify the operator with an audible alert, when an object is within a relative distance of the machine's path. The closer the Telehandler gets to an object, the faster the rate of the audible alert. Please contact the Parts Marketing team at 1-877-554-5438 or partsprograms@jlg.com for more information.

FEATURES / BENEFITS

- Utilizes pulse radar technology to detect moving and stationary objects.
- Audible alarm mounted in the cab.
- Four detection zones—audible alarm will sound from 1 tone per second to 8 tones per second based on the zone where the object is detected.
- Available on current production JLG® telehandlers that ship after December 15, 2014 and current production SkyTrak® telehandlers that ship after January 28, 2015.
- Can be retrofitted to JLG G model machines.

Product	Model	Specification	JLG Part Number
JLG	G6-42A	ANSI	1001154127*
	G9-43A/G10-43A	CE	1001161725*
	G10-55A/G12-55A	ISO	1001161727*
SkyTrak®	6036/6042	ANSI	1001187366
	8042	CE	1001187367
	10042/10054	ISO	1001187368

NOTE:

* For G6-42A S/N prior to 0160031618, G9-43A/G10-43A S/N prior to 0160031635, G10-55A S/N prior to 0160031697 or G12-55A S/N prior to 0160031708:
If unit has existing taillight P/N 91121145, customer will also need to order qty 1 each of bracket P/N 1001090522 and hardware 0681810, 4751700, 4761700 and 3311802.
